

Music Curriculum Intent, Implementation and Impact Overview

Music Statement

At Sacred Heart Primary School we make music an enjoyable learning experience. We encourage children to participate in a variety of musical experiences through which we aim to build up the confidence of all children. Our teaching focuses on developing the children's ability to sing in tune and with other people, learn to read basic musical notation as well as the opportunity to learn to play a variety of instruments. Through singing songs, children learn about the structure and organisation of music. We teach them to listen and to appreciate different forms of music. As children get older, we expect them to maintain their concentration for longer and to listen to more extended pieces of music. Children develop descriptive skills in music lessons when learning about how music can represent feelings and emotions. We teach them the disciplined skills of recognising pulse and pitch. Also, we teach the children how to work with others to compose music and perform for an audience.

Sacred Heart School has identified **key intentions** that drive our Music curriculum and these are:
